

217x90 mm

The image shows a technical drawing of a shaft with a tapered section. The shaft is oriented vertically. The top section is a cylinder with a diameter of 217 mm and a length of 90 mm. Below this is a section with a diameter of 226 mm and a length of 100 mm. The shaft tapers from the 226 mm diameter section to a smaller diameter at the bottom. A red arrow at the bottom indicates a counter-clockwise rotation, labeled 'LA'.
